SUMMARY

I'm Huda Zahra — a Machine Learning enthusiast and student at NUST, passionate about exploring new ideas and turning them into real-world projects. I love diving deep into AI, learning continuously, and pushing my boundaries. I'm always excited to collaborate, grow, and create things that make a meaningful impact.

EXPERIENCE

AI Intern · The Marketing Lads March 2024 — Present

- Built scalable backend services with FastAPI and a vector database to power multi-client AI products.
- Deployed applications via Docker, GitHub Actions, and GCP for consistent CI/CD across environments.

Software Engineering Intern · Rohde & Schwarz Aug 2024 — Sep 2024

- Built and optimized secure data pipelines, integrating firewall protection and hardware acceleration.
- Enhanced PostgreSQL operations supporting critical communication in Air Traffic Control (ATC) applications.

Web Developer · Washify April 2024 — June 2024

- Led development of a microservices-based infrastructure on the MERN stack.
- Optimized system architecture for faster load times, improved responsiveness, and a better end-user experience.

SKILLS

ML / AI: PyTorch, TensorFlow, Keras, Hugging Face, LangChain, Scikit-Learn, OpenCV, Gradio

Web & Backend: React, Node.js, Express.js, FastAPI, Flask, MongoDB, PostgreSQL, Vite, HTML5, CSS3, Bootstrap

Data Science: Pandas, NumPy, SciPy, Matplotlib, Seaborn

DevOps & Tooling: Docker, Git, Conda

Languages: Python, JavaScript, Java, C++, SQL, Assembly

Other: MATLAB, AutoCAD, LaTeX

EDUCATION

Bachelor of Engineering — Software Engineering

National University of Sciences & Technology (NUST) · Nov 2021 — May 2025 · CGPA: 3.52 / 4.00
